

Olive Toy Fox Terriers

Dear Friend,

Thank you for your interest in my Toy Fox Terriers.
Here is my 'sort of' form letter telling you about my dogs and me.

I do not ship my puppies via air cargo. People either drive or fly into Pensacola, Florida to pick up their puppy and take their puppy home under their seat in the cabin of the airplane. I am able to meet my new owners part way if it will help them, but I love it when you come here to meet all of my dogs.

Coming in person for a puppy is a great advantage for our new owners as they have the chance to meet and see the sire, dam and some relatives of their puppy and also all the other dogs I have and love. My dogs are each my pets. They live inside my home and sleep in bed with me at night. (We have a wonderful king size bed!!!) My puppies are born inside my house and they are never more than 15 feet from me at any time until they go to their new families. I do not sell my puppies to homes where they will be kenneled and only used for showing and breeding. Every dog I sell deserves to be a beloved pet first and foremost.

My puppies can go to their new forever homes at 8 weeks old. Each puppy I sell comes with all shots and wormings up to date, a health certificate signed by my vet, a copy of our great new breed book by Dr. John Davidson called "The Toy Fox Terrier: Wired For Action", a metal Jeffers Dog Crate, a Crate Pad, Snuggle Sack, Leash and Toys made by yours truly, a Collar, Ball and a couple of Squeaky Toys, Food for two weeks, a Food Dish, a great Movie to watch with your new pal called "Good Boy!", a Backpack, Health Information and anything else I think your puppy needs to make a smooth transition into your home. If you don't need some of these things, I am happy to deduct the cost of the things you won't need.

Most of my dogs are dual registered with the United Kennel Club and the American Kennel Club. Many of the parents of my puppies are Champions either UKC or AKC or both making them dual Champions. I show my dogs at UKC and AKC dog shows so that you will know that I am breeding excellent Toy Fox Terrier dogs that conform to our breed standards. All of my breeding dogs are checked for sound patellas and are registered "NORMAL" with the Orthopedic Foundation For Animals (the OFA).

I want to tell you that, due to experimenting with my puppies' early living areas, I am able to have most of them at least paper trained (and sometimes trained to go outside on the grass) by the time they are 8 weeks old. Every puppy I raise has play periods that teach tolerance to odd and loud noises, lots of other dogs, my dear rescue cat Frankie, balls, steps...everything I can think of to make each puppy I breed the best pal a person could ever have.

If you are interested in reserving a puppy I take deposits on my puppies. The deposit is totally refundable if you change your mind for any reason about wanting a puppy because I want each puppy that I breed to have a happy home for life. People who reserve one of my puppies send a personal check for \$100.00. I do not cash the deposit check, but hold it and return it marked "VOID" when the puppy is picked up and paid for with either cash or a certified Cashiers Check.

If you have any questions, please don't hesitate to ask and I thank you for your interest in my dear little dogs.

Sincerely,
Barbara Mathews
